

# TIC TAC TOE

## INSTRUCTIONS

**Objective:** The game is played on a 3x3 grid. The goal is to be the first player to get three of your symbols in a row, either horizontally, vertically, or diagonally.

**Players:** Tic Tac Toe is typically played by two players, often represented by "X" and "O" symbols.

**Gameplay:** Players alternate turns, placing one symbol on each turn. Once a symbol is placed in a square, it cannot be moved.

**Winning:** The game continues until one player gets three of their symbols in a row (horizontally, vertically, or diagonally), or until all nine squares are filled without a winner, resulting in a draw.

**Declaring the Winner:** When a player achieves three in a row, they announce their victory by saying "Tic Tac Toe!" or simply stating that they've won.
